20 APR 1963

*C/14*  
Dr. Ray S. Cline  
Deputy Director (Intelligence)  
CIA  
Washington 25, D. C.

Dear Dr. Cline

The recent General meeting of the USAF Scientific Advisory Board was one of our most successful. I believe that a great deal of this success is attributable to the caliber of the speakers on the program.

The presentation which you gave on "More Nations with Nuclear Power" was outstanding and a great asset to the program. Discussion group activities on the second day relied heavily on these talks for background material.

I have heard many favorable comments on the technical excellence of your presentation and feel certain that these views are shared by all who attended the meeting. It is therefore my pleasure, on behalf of Secretary Zuckert, General LeMay and the Board to forward this expression of our appreciation for your efforts.

Sincerely

*James Ferguson*  
JAMES FERGUSON  
Lt General, USAF  
Military Director  
USAF Scientific Advisory Board
